## Experience

---

### Cash Call

*Trainee Front-end Web Developer*

- Completed an intensive Front-end Developer track, mastering skills in , HTML5, JavaScript, and CSS3.
- Developed responsive web applications using **HTML,CSS,Angular**.
- My experience at Cash Call was full of challenges, and by the grace of God, I managed to overcome them and learn from them. I am always excited to learn more and have a great passion to become the best in my field. I learned a lot from all team members, especially my manager and my best friend.
- I participated in building a project similar to the Talabat app using the Angular framework, and more recently, I contributed to the company's payment gateway project. Additionally, I developed a website using WordPress.
- This experience was beautiful and enjoyable, and it taught me a lot. I am grateful to everyone who helped, encouraged, and stood by me. At this company, I met the best people and formed wonderful friendships with truly amazing individuals.

### Route Academy

*Front-End Course*

- Completed an intensive Front-end Developer track, mastering skills in , CSS3, HTML5, and JavaScript,
